

ATSP for Internetworking

Checklist

Thank you for your interest in ADTRAN® Technical Support Professional for Internetworking (ATSP/IN)

ATSP/IN is a professional level certification for technical staff responsible for designing, implementing and supporting ADTRAN solutions using ADTRAN's NetVanta® Internetworking products.

Step 1: Log in and Enter ADTRAN University.
www.adtranUniversity.com

Step 2: Participate/Complete Prerequisite Training

- Complete ATSA/IN certification requirements.
- Enroll in ATSP training requirement. * (see options below)

Step 3: Attend the Required Training and Pass the Exam.

- Attend the ATSP/IN course through one of the training options noted below.
- The exam will be made available to you once the training requirement has been met.
- Pass the exam with 80% or higher.

*

This training requirement can be met via three ways:

Instructor-Led Training (ILT)

The ILT course requires students to attend a four day class entitled "ATSP/IN" that teaches hands-on skills for installing, supporting, and troubleshooting the NetVanta Internetworking solutions. There is a fee per student that covers the cost of the training and the online exam.

Virtual ILT

The Virtual ILT is a Web-based version of the ATSP/IN class, offered as a two week course with four instructor-led sessions. Each lecture session is four hours, and students are provided access to remote labs. There is a fee per student that covers the cost of the Virtual ILT training, remote lab access, and the online exam.

Self-paced Study Kit

The Study Kit provides a comprehensive manual covering all the material presented in the instructor-led training courses, and allows the student to study at his/her own pace. The Self-paced Study Kit is available for a fee and includes the kit itself and the online exam.

This course will include interactive lecture as well as lab exercises. Integrated lab exercises are designed to reinforce the class content with installation, configuration and troubleshooting procedures associated with the NetVanta Internetworking products.
